Iona Campagnolo will officiate at the opening of the new one kilometer fitness trail at Hirsch Creek golf course, September 2. The opening will also attended

## Iona to open fitness trails for better living in Kitimat

Everything appears to be caught up and in readiness for Saturday's official opening of the new fitness trail at the Hirsch Creek golf course, in Kitimat.

The trail will be opened at an official ceremony attended by representatives from Alcan, Eurocan, the community of Kitimat, government departmental heads and others who contributed in various ways to the success of the project.

The forest fires in the Kitimat area were responsible for delays in completing the project and a cable shortage had held up the installation of lights along the illuminated portion of the trail. Since then, volunteers have hooked up the No. 4 Triplex wire especially ordered from Vancouver by project coordinator Eric Lasanen. Extra amounts of hog fuel have recently been brought in to adequately surface the trail.

A Canada Works grant of \$75,000 gave substance to the idea for the construction of the

by the man who got the project underway, carpenter, Eric Lasanen of Alcan. A reception will follow the ceremony at 11 a.m.

trails and sparked volunteer activity and generous contributions of materials over the past year. The vision of a few is now a reality, and on September 2 will be heralded by an official "send off" at the Club house.

High intensity electric lighting will make possible one of the trails being used the year round for joggers and for cross country skiers. The lighted path will be the only one of its kind in the area.

A four-kilometre trail branches off the fitness trail and a four kilometre path connects with a rifle range for use as a "biathlon" trail.

The addition of the fitness, jogging and biathlon trails will make a healthy extension to the recreation, sports and fitness facilities of the Kitimat area and should add to the attraction of a community noted for an excessively high rate of mental depression and suicidal problems among its residents.

## Archbishop in Baffin Island for 400 Anniv. Celebrations

**PROBISHER BAY, N.W.T. (CP)** — The Archbishop of Canterbury, Most Rev. Dr. Donald Coggan, says his main interest in coming to the Canadian North is to share a spiritual experience with Eskimos of the Anglican faith.

The archbishop, who arrived in this Eastern Arctic community 3,000 kilometres north of Montreal on Tuesday, has so far refrained from commenting on the situation faced by the Canadian Inuit.

"Although 40 years ago I lived in Canada, I am not very well up-to-date on our northern situation, as I arrived only yesterday," Dr. Coggan said Wednesday.

Wednesday night, Dr. Coggan, joined by leaders of

the Anglican Church in Canada, took part in a service in St. Jude Cathedral to commemorate the first Anglican service in North America 400 years ago.

Joining Dr. Coggan were Most Rev. Edward Scott, Primate of the Anglican Church in Canada, Archbishop Fred Crab of Rupert's Land, Bishop John R. Sperry of the Arctic, Dean Chemnitz, the Lutheran Bishop of Greenland, and Commissioner Stuart Hodgson of the Northwest Territories.

Also present was Capt. Charles Frobisher, 84, of Southham, England, a descendant of explorer Sir Martin Frobisher. The first Anglican service in North America was held aboard Sir Martin's ship near here on

Aug. 30, 1578.

Bishop Sperry said Wednesday the church is pleased with progress in the North. There now are Inuit ministers preaching the Inuit version of the Bible.

"The Inuit have found the Christian approach is far superior to what they had before, although many of their cultural traditions continue," Bishop Sperry said.

But he also acknowledged that the white man has resulted in "the happy hunters of the North" facing problems of alcoholism, drug abuse, juvenile delinquency and loss of cultural identity.

"But we are not a legislative body and we don't try to tell them what they should do. So far, our

ministers have played a neutral role in this area."

**DELIVER LECTURES**  
Dr. Coggan, who left Thursday for a one-day visit to Pangnirtung, another Anglican Eskimo community about 300 kilometres north of here, will deliver spiritual lectures in Probers Bay today.

On Saturday, the village of Probers Bay will hold a concert in honor of the 400th anniversary of the naming of the community. There will be Inuit singing and dancing as well as Elizabethan music.

The 400th anniversary celebrations will continue until Sunday. Dr. Coggan then goes to British Columbia for a one-week visit before returning to Britain.

Wouldn't get off

## Lacrosse players, officials, wives, sit in

**VERNON, B.C. (CP)** — A chartered CP Air 737 made an unscheduled flight to nearby Kelowna from

Calgary Thursday when 127 lacrosse players, officials and wives refused to get off the plane in Calgary.

The four teams, representing Quebec, Ontario, New Brunswick and Nova Scotia, were bound for the Canadian senior B lacrosse championship here.

The pilot and air crew expected everyone to disembark when the plane landed at Calgary but everyone stayed on board, a team official said.

"I don't know how it got fouled up," said Bill McBain, Canadian Lacrosse Association co-ordinator.

"But they stayed on the plane and said this isn't where we're going to get off."

Art Rattle, spokesman for the Ontario Lacrosse Association who was on the plane in Calgary, said: "We just stayed put and told them we weren't going to move. I think the air crew expected us to get off but we were told when we left Toronto that we were going to land in Kelowna."

## Missing Men Show Up Safe

A helicopter search led by the Emergency Programme and RCMP was undertaken Tuesday after police received a report of three fishermen due home that day who failed to arrive on time.

The fishermen, whose names were not released, were fishing the Gitnadoix River about 25 miles west of Terrace.

The three returned the next day. They had apparently been delayed by car problems.

Two hunters had also been reported overdue earlier this week from the Exchamsiks River area about 20 miles west of Terrace, but they also returned home safely after being stranded on top of a mountain when night fell.

Six juveniles were apprehended by police after they had broken into a trailer at MacGillis & Gibbs and spent the night inside. They were discovered by an employee at about 7:30 a.m.

A pop machine at the Shell Bulk Plant on Highway 16 was stolen Wednesday night. Police recovered the pop and money taken from the machine and are still investigating.

A motorhome was broken into at 3307 Monroe Street. A television set, binoculars, 8-track tape deck and tapes worth approximately \$1,000 were stolen.

Tool boxes were stolen from trucks in two separate incidents.

One, a red two-drawer toolbox containing assorted tools including electrical tools, was valued at \$500, the other, a red three-drawer toolbox containing tools was valued at \$300.

## Death Ruled Misadventure

**FORT ST. JAMES, B.C. (CP)** — A knife-wielding 18-year-old Terrace, B.C., man shot to death here by an RCMP officer April 15 died of misadventure, a coroner's jury ruled Wednesday.

Vernon Darryl Benson died as the result of internal bleeding caused by a wound inflicted by the service revolver of Constable R. R. Davidson, the jury ruled.

The four-man, two-woman jury attached no blame, and ruled the officer had acted within his jurisdiction in the performance of his duty, but said that two officers been present, less force might have been needed to subdue Benson.

Witnesses testified that Davidson was called to a residence where the occupant, Herbert Mitchell Abraham was being threatened by a man with a knife.

When Davidson arrived, Abraham was being chased into the street by Benson.

"Go ahead and shoot me," was Benson's response to repeated warnings by Davidson to drop the knife, the inquest was told.

The jury found that Benson, five foot-11, 220 pounds, was highly intoxicated and extremely agitated at the time of his death.

Benson was shot once, in the left shoulder, and the bullet punctured both lungs. The jury deliberated two hours, and recommended that wherever possible, two RCMP officers attend calls where violence is threatened.

## High cost

# French T.V. for Terrace

By Nixon R. Baker

The Canadian Broadcasting Corporation confirmed today that plans are almost complete to bring a French language television station to Terrace.

Mr. William Sheehan, assistant to Gordon Craig, Western Division Manager of the CBC, told the Herald the station should be on the air, "some time this fall".

Well-informed sources estimate the cost of the service which will carry French CBC programming via microwave from Vancouver will run in the neighbourhood of \$60,000 per month, or \$200 per French speaking family per month.

Work, atop Copper Mountain, on the new facilities which will be used to receive the French television signal and two FM signals is almost complete. One FM station will be in English, the other in French. This will result in dropping the present CBC AM broadcasting in Terrace, according to Sheehan.

"Work on the system was held up somewhat by the forest fire situation, and now we must hurry before snow on the mountain further curtails the completion of the work," Sheehan said.

Although he was unwilling to quote precise figures, Sheehan admitted the microwave connection from Vancouver will cost, "a lot of money".

Despite the recent 71 million dollar cutback in the CBC budget, Sheehan said there has been no indication whatsoever that the Terrace French television station will be delayed.

TWO YEARS

Mr. Sheehan pointed out that it takes approximately two years to put a new station on the air. This includes six months notice to the CRT, a year of engineering work and planning, and six months of actual preparation.

This would indicate that the decision to begin French broadcasting coincided with the publication of a survey done by Josette O'Donoghue, sponsored by the Federation of Franco-Columbiens, Skeena Region and paid for by a LIP (Local Initiatives Program) grant.

In his report Mr. O'Donoghue claims there are 328 families whose mother tongue is French living in Terrace. No attempt was made to determine how many of these people are totally bilingual. (The Herald will be checking the list during the up-coming week: results will be published.)

However O'Donoghue adds in his report, "In view of the fact that most of the French families resident in the Greater Terrace area are from forestry communities in Quebec or New Brunswick it is felt that a large number of these families have either returned to their provinces of origin temporarily or permanently due to the long period, from June 1975 to this spring, (1976) in which the forestry industry in this region was at a complete standstill."

Since the publication of this report, a French radio station began operations in Terrace.

When contacted by the Herald, CFTK Station

Manager, Fred Weber said the new channel will not interfere with current TK or Cablecast television in Terrace or Kitimat.

He pointed out, however, that at the time the original LIP survey was done his firm offered to broadcast a French station on the cable free.

"All they had to do was get us the material, and we would have broadcast 24 hours a day if that was what they wanted."

Weber pointed out that some 10 years ago Terrace English language programming was shown three weeks after the rest of the country had seen it due to lack of facilities. This went on for almost five years before we got a microwave connection Weber pointed out.

Cablecast programming is available to almost 95 percent of Terrace-Kitimat residents.

CFTK has applied for and received permission to increase their power output, and will have their antenna located on top of Copper Mountain along with the new CBC facilities.

## Hot wasn't it

Now that summer is drawing to a close, you may look back at June and July with a more objective view and still think those two months were uncommonly hot and dry. You are right.

July, 1978, was the second warmest and driest July in Terrace since proper records have been compiled, some 30 years ago. We received only 13.6 mm of rain during the entire month compared with an average rainfall of 58.9 mm. Hence the water shortage and the extremely high fire hazard.

June was the third warmest and driest month ever recorded and was the worst from the point of view of lack of rain fall during the 1970's. Figures are not yet available for August.

"It was the type of season we haven't experienced in a number of years," Herb Quast, District Forester told the Herald.

## So That's Where It Went!

**MONTREAL (CP)** — Police announced Thursday they have arrested two post office employees in connection with a multimillion dollar theft, ring that had been operating inside the post office for the last two years.

Police spokesman Constable Normand Couillard said the two employees—a

supervisor and a truck driver—informed accomplices of the contents of mail trucks and the time and place they could be intercepted.

He said that sometimes, the two employees would let themselves be attacked by accomplices to whom they would lend their uniforms. The accomplices would then be able to move freely

in post office buildings and take delivery of parcels.

The two employees would then alert police and inform them that their uniforms had been stolen.

Couillard said police believe the system may have been used in other Canadian cities and investigations are being conducted across the country.

Acting Mayor David Pease studies "stats" for new addition to Terrace Public Library

David Pease, acting Mayor of Terrace looks over the "stats" for the upcoming addition to the local library. Construction is scheduled to start during September on the approximately \$220,000 addition. There is a catch however, the motion of council which granted the contract to Wirtl Construction is contingent on approval by the Recreation Facilities Assistance Fund, which comes under the Ministry of Recreation and Conservation. Official approval of the expected 30 percent grant has yet to be received by city council. A spokesman for the construction firm said they are ready to proceed immediately the grant is forthcoming. According to the council motion, work must begin by September 15. If not a new motion will have to be passed.

## Wintario Lottery Winners

**WILBERFORCE, Ont. (CP)** — Five tickets worth \$100,000 each were drawn Thursday in the Wintario lottery.

The winning numbers were 14313 in series seven; 31424 in series 77; 43337 in series 43; 76230 in series 49; and 81934 in series 32.

There was a total of 90,720 prizes for more than \$3.4 million in prize money. The next draw will be held Sept. 14 in Watford, Ont.

## Cdn. \$ Sitill at alltime low

**MONTREAL (CP)** — The Canadian dollar gained slightly on New York money markets Thursday, but failed to break above the 87 U.S. cent level.

The currency, which reached a 40-year low Wednesday at 86.86 cents, gained 7-10 of a cent to close at 86.93 cents on the inter-bank wholesale market, where banks buy and sell currencies in large amounts.

The dollar has been fluctuating around the 87 cent level for most of this month, in what foreign exchange dealers call a continuing general weakness in the currency.

# Canadians hold 17 Irish Sweepstakes tickets

**DUBLIN (CP)** — Canadians hold 17 of the tickets drawn Thursday for the Irish Sweeps National Stakes horse race Saturday.

Sue Green, a 60-year-old widow from Coquitlam, B.C., won the super prize of 250,000 pounds sterling, about \$500,000 Canadian.

Her ticket number was PBR50554.

It was the 31st super prize drawn. Canadians have won it 14 times. United States ticket holders have won it 13 times and it has gone to Britain three times and once to Ireland.

The race will be held at the

Curragh, about 50 kilometres from Dublin.

There will be two first prizes on the race of 50,000 pounds (\$100,000), two second prizes of 20,000 pounds (\$40,000), two third prizes of 10,000 pounds (\$20,000) and several smaller cash prizes.

Following is a list of Canadian tickets with the horse's name, ticket number and name and address of ticket holder:

**BORRAN BEAG**—PAE19374, Bill McGarvey, 302200 47th Ave., S.W., Calgary.

**MILLVILLE**—PJE25004, Mrs. Marie King, 241 Eighth Ave., New Westminster, B.C.

# Imperial Oil says west will be hard up for Nat. Gas by 1985 despite optimists

**OTTAWA (CP)** — Natural gas will be in tight supply in only six years despite the current surplus of the fuel in the West, Imperial Oil Ltd. says.

The company, the largest oil firm in the country, said in a brief filed Thursday with the National Energy Board that demand for gas will be running close to supply from the western provinces by 1985.

It adds that by 1992, the current producing areas in Alberta, Saskatchewan and British Columbia no longer will be able to meet the country's needs and frontier supplies will be needed in southern markets.

Alberta producers have been pressing Ottawa to allow more exports to the United States to eliminate what they describe as "a gas

bubble"—the capability to produce more gas than needed now to meet demands in the domestic and export markets.

Imperial estimates the size of the surplus at 400 billion cubic feet a year. It says 3.1 trillion cubic feet can be produced annually to meet total market demands of 2.7 trillion—1.7 trillion for domestic consumers and one trillion in exports to the United States.

**INCREASE EXPORTS**  
As a result of the surplus, increased exports to the U.S. should be allowed to aid in oil industry development and to help the economy in general by lowering the balance of payments deficit on energy trade, the brief says.

But the company says although it feels more exports are a good idea, it would not

press the issue with the federal government.

Current government policy is to allow exports only on a swap basis—shipping out more Alberta gas now in return for gas from Alaska when it is available in the 1980s.

The government says its first priority is increasing the amount of natural gas used in Eastern Canada, lessening the area's dependence on high-cost imported oil.

It has proposed flexible pricing, including possible cuts for new markets areas, as an incentive to encourage the switch from oil to gas. The gas currently sells at 85 per cent of the value of oil—\$2 a thousand cubic feet wholesale in Toronto.

Imperial says it expects to see the natural gas pipeline

from the West extended as far as Quebec City, but adds that any further expansion into the Maritimes would be uneconomic.

**LITTLE AFFECT**  
The company brief, says price changes within a range of 75 to 100 per cent will have little affect on demand for gas.

Market for the fuel has increased even in periods where gas was selling for as much as 15 per cent more than oil, the brief says.

Imperial expects to see demand for gas grow from the current 1.7 trillion cubic feet

to 2.4 trillion by 1985 and to 3.2 trillion in the year 2000.

Gas production from the western provinces will reach 3.4 trillion cubic feet by 1985, and then begin to drop off. With demand running just below supply through the 1980s, the firm feels that natural gas from the western Arctic will be needed to protect against shortages. It feels the earliest possible date for those supplies to come on stream is 1987.

Gas from the eastern Arctic would be available for markets in the early 1990s, the company estimates.

# Canadian Bar Association vote: Soft on drugs-Loyal to Queen!

**HALIFAX (CP)** — The Canadian Bar Association joined Thursday those demanding an end to criminal penalties for possession of marijuana and sent into limbo a \$200,000 report proposing that the Queen be replaced by a Canadian as head of state.

About 500 lawyers took about 30 minutes to approve a resolution saying that the report did not represent the views of the association and that it would be sent to provincial branches for study. No time limits were set.

A reference to the head-of-state controversy was stripped from the resolution. It said the proposal "has incorrectly raised the question of loyalty to her majesty the Queen."

Donald Langlois of Quebec City said the resolution should express neither approval nor disapproval, pending branch study, and moved deletion of the reference. The resolution was passed.

This ended a controversy that began July 25 with the leak of the report to a Toronto newspaper while the Queen was in Canada to open the Commonwealth Games.

Jacques Viau, outgoing association president, said

the leak had caused the association and its members embarrassment.

**LOST MEMBERS**  
"This leak put the association in a most humiliating position, at least in Ontario," Brendan O'Brien of Toronto told delegates.

He said the association has been condemned in letters to the editor as irresponsible and some members have quit.

The resolution itself is a compromise. Ontario proposed as the convention began Sunday that members affirm their allegiance to the Queen. This resolution drew heavy fire from Quebec delegates—and many others who said it raised questions about their loyalty to the Queen—and it was fought behind closed doors in the resolutions committee.

It was the committee that drafted the compromise from a welter of conflicting proposals.

The other key issue before the association was a resolution, passed over the heated opposition of some, that the federal government remove criminal penalties for possession of marijuana. However, the association hedged its support for the move, saying only that it should be legal to own or grow marijuana plants for personal adult use. It also backed the non-profit transfer of small amounts between adults.

# Ask your builder about the Super-Insulation System...the lifetime heat and money saver!

It's a fact, if you're building or buying a new home, the Super-Insulation System is your best protection against the high cost of home heating. There's nothing complicated about it. S.I.S. simply retains regular batt insulation within the walls and replaces ordinary low-efficiency sheathing on the outside with high-efficiency STYROFOAM SM insulating sheathing. Result? A snug blue blanket that wraps your home in permanent, super-efficient insulation from top to bottom, corner to corner, and all points between (including the door and window frames).

So, if you're in the market for a new home, talk to your builder about the Super-Insulation System. He'll tell you how the small extra cost is more than repaid by substantial savings and extra comfort all year, every year!

**THIS PLAQUE IN THE BASEMENT SIGNIFIES THAT YOUR HOME HAS BEEN EFFECTIVELY INSULATED "THE S.I.S. WAY" TO SAVE MONEY AND ENERGY! ASK YOUR BUILDER.**

## All beer and skittles

## Companies dump beer-workers back

VANCOUVER CP - Labatt's brewery was preparing to dump 2,200 gallons of non-union beer in a bid to get workers back on the job after they had voted to ratify a two-year agreement and end a three-month shutdown.

Labatt's used supervisors to brew the new batch to replenish stocks which had been dumped earlier because they had deteriorated and failed to meet quality standards during the long shutdown. The company replenished this stock in a bid to beat competitors into the market but the move backfired when the Victoria workers rejected back-to-work terms unless the non-union product was poured down the sewer in the brewery.

Meanwhile, Hal Moran, vice-president of Molson's Breweries in British Columbia, said today that about 50,000 dozen cases of beer at the Vancouver brewery will be dumped because it doesn't meet quality standards. He said a taste panel determined the beer had changed because of the summer heat in storage. As a result, beer will not be delivered to liquor stores until about 10 days after workers return to their jobs. Draft beer, however, can be sent out immediately, he said.

Ray Wainwright, president of the Victoria local of the Canadian Union of United Brewery, Flour, Cereal, Soft Drink and Distillery Workers said all remaining problems in the dispute had been resolved. "All issues have been clarified, geniality has been restored and we will be going back to work momentarily," he said.

He refused to elaborate on the terms of the agreement. While workers at all five plants accepted the companies' latest offer Wednesday, the Victoria workers

had rejected the back-to-work arrangement until management dumped beer produced by supervisors. STOCKS DUMPED

Labatt's used supervisors to brew the new batch of 2,200 gallons to replenish

stocks which had been dumped earlier because they had deteriorated and failed to meet quality standards during the long shutdown. The company replenished this stock in a bid to beat competitors into the market but the move backfired when

the Victoria workers rejected back-to-work terms unless the non-union product was poured down the sewer in the brewery.

Meanwhile, Hal Moran, vice-president of Molson's Breweries in B.C., said about 50,000 dozen cases of beer at the Vancouver brewery will be dumped because it doesn't meet quality standards. He said a taste panel determined the beer had changed because of the summer heat in storage. As a result, beer will not be

delivered to liquor stores until about 10 days after workers return to their jobs, he said. Draft beer, however, can be sent out immediately.

Workers at Labatt's New Westminster voted 51 per cent in favor of the new contract, Molson employees voted 57 per cent to accept and Carling O'Keefe workers, whose strike started the shutdown May 26, voted 74 per cent for the offer. Percentages were not available for Columbia Breweries.

## 300 billion for energy

VANCOUVER (CP) — Canada will have to spend as much as \$300 billion over the next dozen years to become reasonably self-sufficient in energy resources, Robert Bonner, British Columbia Hydro chairman, said Wednesday.

In an speech to the annual conference of the Northwest Public Power Association, Bonner said that Canada might have to enter a special energy export deal with the United States to pay the bill.

He said that nowhere in Canada, not even in B.C. with its huge stores of water and coal, can energy needs be met for more than 20 years through conventional power sources.

"We must reawaken the public to the need, if not necessarily the desirability, of nuclear power development," Bonner said. "Nuclear power is growing rapidly in Ontario, starting in Quebec, soon will be needed in the Maritimes and eventually will be needed in B.C."

He said the public also must be made aware of the long lead-in time—as much as 15 years—in providing

The ancient Greeks considered two of anything unlucky.

Forest Fire Hazard

LOW MODERATE HIGH EXTREME

Province of British Columbia  
Ministry of Forests

## Ranger Station

A pleasant change to see hazard at low  
Fire fighting expense  
increased 300% this year

There are some government expenditures which simply cannot be curtailed

regardless of any restraints. Fire fighting costs within the province this year were

almost triple last year's expenditures: \$11,696,000 this year as compared with \$3,174,000 last year.

Much of the increase is attributed to uncommonly hot, dry weather experienced during the months of June and July. Costs could have risen even higher had it not been for heavy rainfalls during the early part of August, according to local forest ranger, Herb Quast.

The Prince Rupert, Prince George areas which include Terrace-Kitimat were among the hardest hit parts of the province. Expenditures for the Prince Rupert area reached \$5,536,000 this season compared with only \$307,900 last year, while the Prince George area reported costs of \$1,721,000 compared with \$287,000 last year.

The Ministry of Forests in Victoria reports there are still some 60 fires burning throughout the province, all of which are under control. Local forester Quast reports no new fires in the Terrace district and "all is quiet". One small fire broke out last week but was quickly extinguished.

Vatican role unique  
Pope Jean Paul says

VATICAN CITY (AP) — Pope John Paul I vowed today to continue the work of his predecessor in the field of human rights, detente, disarmament and world peace in his first speech to the diplomatic corps to the Vatican.

Using a foreign language—French—for the first time in his five-day old pontificate, he described the Vatican role in international affairs as unique.

"Our diplomatic missions far from being a survival from the past, are a witness to our deep-seated respect for lawful temporal power and to our lively interests in the human causes that the temporal power is intended to advance."

That, the Pope said, "is one appreciable form of co-operation or mutual aid that the Holy See has the

possibility of contributing, thanks to the international recognition that it enjoys and the representation of the whole of the Catholic world that it ensures."

Attending the audience were 51 heads of diplomatic missions to the Vatican and their aides.

The Pope will be inaugurated Sunday, and Vatican sources say he is simplifying the ceremony to emphasize the humility and dedication to religion that he wants to characterize his reign.

The Pope has chosen to have a thin, circular band of white wool, called a pallium, placed on his shoulders rather than be crowned with the beehive-shaped tiara used for 15 centuries. And he will not be carried to or from the ceremony on the traditional portable throne.

## Me and Macleans

Close to twenty years ago, I was watching the swirling ground-snow gusting past the kitchen window in my house on the shore of Hudson Bay, at Churchill Manitoba. The dog team of a trapper friend of mine had just pulled up and delivered my mail from the local post office, and was sharing a pot of tea with me, across the table.

As I opened the string-tied bundle of letters and papers, a copy of Macleans was one of the first to fall out, and I was soon thumbing through the contents.

The articles of "Canada's National Magazine" dealt, as it usually did, with the problems and joys of a life so distantly removed from that of its northern two thirds that to read it was to read of life in another country.

The treeless, permafrost-based, harsh climate, land of Canada's Arctic and sub-arctic had produced a life-style vastly different in almost every way, from that of its United States hugging lower third.

The upper two thirds held no university, no technical schools, no library system, no lateral air or rail transportation, no T.V., no farming - hence no cattle and other farm animals. All milk, vegetables, fruit and almost every other commodity - had to be brought in from the south.

For the umpteenth time, I found myself wondering why, in all the half-million square miles of Hudson and James Bays and Foxe Basin there was not one single attempt at commercial fishing. That not one of the ships that came to take on wheat at the port of Churchill was Canadian. That, in the twenty years I had lived there, I had yet to see a privately owned ship, or a passenger ship, or... my mind wandered once again on the scores of "Why don't they" knowing I would never get an answer.

That evening I turned to my typewriter and dashed off a lengthy letter to Macleans, suggesting they consider a series of articles on the Canadian North - the people, the animals, the educational system, the transportation system, the mysteries of the Arctic and sub-Arctic, the lack of amenities, the high cost of everything - and the numerous advantages of the northern lifestyle, with its peacefulness, its slower pace, its horizon to horizon carpeting of skylines, and its unanswered challenges.

The next day I mailed the criticisms - then forgot about it.

A week or two later, a letter arrived from Macleans, thanking me for my suggestions, and ending with the suggestion that I add to my letter, turning it into an article - with an offer to pay me \$500 for my trouble, "on acceptance".

I was ecstatic. My friends were skeptical. One who had spent a lifetime in submitting articles to Macleans cautioned me against optimism, suggesting that Macleans would "pick my brains", then tell me my writing was unacceptable then, at a later time, would have one of their writers re-write what I had sent in, and use it as their own.

But - since I had nothing to lose, I went ahead, and one night sat down with the twilight pouring through the kitchen window, from reflecting ice on Hudson Bay, dashed off "a bunch of words", stuffed them in an envelope and, the next morning mailed them to the magazine.

Roughly a month went by, without any word. Then, a bulky manila envelope arrived with the Maclean-Hunter address in the upper left hand corner. It was my manuscript - not rejected - in galley proofs, with a covering note asking me to check it out for errors, and promising me I would receive a cheque for \$400 "on publication".

My joy was tempered only by the reduced sum - \$400 - but they had promised \$500.

"Take it," my wife said, sensibly, "You never got a nickel for anything you ever wrote, before." But there was the matter of "principle" - and the stars in my eyes shone brighter, in those days, than they do now.

I marched to the CN telegraph office and sent a wire to Macleans, something along these lines: "Manitoba cuts off the upper 20 percent of its tourist map of the province and Macleans the top 20 percent of its cheque. But, if that's the way you want it, it's O.K. by me."

Within a couple of hours - a record for a reply by Churchill standards, came Maclean's answer. "Sorry about that, old man. You'll get the \$500. I had already caught the mistake. By the way, do you know you wrote 12,000 words?" (They had asked for 4,000)

Two months later, the article appeared in Macleans. The publisher of a bi-monthly newspaper saw it, phoned me up and offered me the job of editor for the Churchill Post - which I accepted. A year later, I founded my own weekly newspaper... but that is another story; two stories, in fact.

But, looking back, it is interesting to recall how Macleans was instrumental in my entry into journalism, and embarking on what, to me, is the most exciting profession in the world.

And now, within the last week or so, the word is out that Macleans - or, rather, Maclean-Hunter, has bought the Sterling chain of newspapers and printing presses, of which this newspaper, is one of the 9 dailies in that chain.

It may mean nothing to Macleans, but it means a lot, to me. And, hopefully, it will mean a lot to our readers when, as some are predicting, Macleans will infuse the needed capital and the sophisticated management that will enable the HERALD to develop into an outstanding daily newspaper meeting the journalistic needs of Terrace and Kitimat - not forgetting, of course, Cable-Car Crossing.

"Can't we keep him - I've got kind of attached to him?"

## THIS WEEK

from Ottawa

Iona Campagnolo

There has been considerable discussion in recent weeks on the proposed loan by the Export Development Corporation for the development of a major copper mine in Panama.

Unfortunately, much of this discussion, and much of the criticism of the proposal, is inaccurate, based on false assumptions and has done more to confuse the issue than to resolve it. Let's look at the facts.

### NO TAXPAYERS MONEY

The Cerro Colorado project, as it is known, is a very large copper mine development in Panama. When in full operation it will produce about 187,000 metric tons of copper per year; the estimated capital cost of the project is, with allowances for inflation, \$1.4 billion. The mine could not be put into operation earlier than late 1984, and it is much more likely to not be producing until 1985 or 1986.

The Export Development Corporation (E.D.C.) is a Crown Corporation established by the federal government to create jobs for Canadians through its encouragement of Canadian exports. This encouragement often takes the form of financing for overseas industrial projects undertaken by Canadian industry.

E.D.C. financing is not a grant or a gift. It is a commercial loan, made in competition with other, similar agencies operating in other countries, but at international commercial rates. The E.D.C. does not use the taxpayer's money. It raises its funds on world money markets and, in fact, because it is very selective in its loans, has actually made a profit each year since its inception.

The E.D.C. has never had a loan defaulted.

### JOBS FOR CANADA

All evidence clearly indicates that the Cerro Colorado project will go ahead. If it does not receive E.D.C. financing, other sources are readily available. This is because copper markets - which have been depressed - are now improving, and by the mid-1980's there will be sufficient demand both for new projects such as Cerro Colorado and for existing and new Canadian copper mines.

If the E.D.C. is successful in its negotiations with Panamanian authorities, its involvement in this project will mean 55,000 man-years of employment in Canada, mostly in manufacturing and high-technology employment. And the demand for copper will be sufficiently great that the project will not take jobs away from Stewart,

Granisle, or other Canadian copper-mining towns.

### ECONOMIC DIVERSIFICATION

If we are to diversify our country's economy, and gain a foothold in new, high-technology industries, it will be through projects such as the Cerro Colorado development.

At the same time, however, we must work to re-establish the strength and vitality of industries such as mining, which are still all-important to areas of Canada such as our own. I have already been discussing with my Cabinet colleagues in portfolios such as Industry, Trade and Commerce, Regional Economic Expansion, Energy, Mines and Resources, and Finance ways of doing this, and will continue my efforts in this regard.

Possible routes of assistance include loan guarantees for resource projects with proven potential; expansion of mineral-related secondary industries (e.g. - smelters); revision, in conjunction with the provinces, of the complex federal-provincial taxation structure of the mining industry. (With respect to taxation, it was, of course, the poorly-considered taxation policies of the former N.D.P. government in B.C. which compounded many of the problems of our copper industry.)

In addition, it should be made clear that western Canada also stands to benefit from the proposed E.D.C. loan to Cerro Colorado. Because of the major role played by mining in the B.C. economy, most of the technical skills, some of the manufacturing skills and a lot of the transportation expertise which will be required are available right in our province. B.C., as well as Ontario, will benefit if the E.D.C. loan goes ahead.

### FACTS ARE CLEAR

The facts of the matter - when one bothers to look at them - are quite clear. The Cerro Colorado project has identified issues which must be looked into, and initiatives for our own area which must be followed up. And this is what I am doing, in order to help achieve our goal of stabilizing and diversifying the economy of our area. But one thing I have learned - even before my election as your Member of Parliament - is that accurate information and documented evidence are most helpful in winning arguments than simplistic slogans and shrill rhetoric.

It may not be as entertaining - but its usually more effective.

## The other side of the (copper) coin

Ottawa Offbeat by Richard Jackson

## Was Canada A "Good Sport"?

Ottawa, - Not that it really matters - except perhaps to those Canadians who still have some respect for their British heritage and traditions - but the kinkfolk "over home" seem a little put out with our conduct during the Queen's Commonwealth Games visit.

Here at home, the joint Senate-Commons Committee on the proposed constitutional amendments may argue endlessly of what bearing they have on the status of the monarchy.

Senator Daniel Lang and MP David Collette, both Toronto Liberals, may protest that Prime Minister Trudeau is by-passing both his party and its parliamentary caucus on the issue of the constitution and the place of the Queen in Canada.

The Canadian Bar Association may take one position and various other groups assume differing attitudes.

But in Britain, they're angry.

It was only some 10 years ago that Prince Philip told an Ottawa press conference that if Canadians were tired of the monarchy "for goodness sake, have the courtesy to tell us and we shall leave."

The Prince added that the last thing the Queen would wish in the even then developing situation of growing Canadian disaffection for the monarchy would be a parting with hard feelings.

If there should have to be a farewell sometime in the future, he said, let it be with mutual friendship or at least respect.

So now out comes The Daily Express of London, Britain's second largest national newspaper, with a bitter commentary in caricature by its famed cartoonist, Cummings.

It shows Prince Philip and Princess Anne discussing the Queen's recent Canadian tour and looking at some typical "snapshots" of the visit.

The first "picture" in the royal album shows a blank square and under it "Trudeau welcomes the Queen."

The second "snapshot" shows a pair of feet in sandals, hairy legs in baggy jeans, with the caption "Trudeau, at last, shows up."

Picture No. 3 shows a picket sign reading "Queen, Go Home," and under it the message "Loyal Greetings from the Canadian Bar Association."

Fourth picture in the Cummings "snapshot" cartoon shows an Air Canada jet, taking off from Calgary, blowing four tires and bursting into flame, with the caption "A Right Royal Sendoff for Philip."

Then, lest there be any doubt as to how the millions of readers of The Daily Express are supposed to feel about the whole thing, there is a Page One "splash," as the English dailies term the day's big story, reporting how the royal visit was one insult after another.

It's been a long time since the Brits worked up such a head of steam.

And to really blow the lid off the boiling kettle, The Express does another front page "splash" with diagrams and pictures of "Philip Air Safety Storm."

It concerns Air Canada's twice-aborted Calgary takeoff with the Prince and 371 other passengers.

Expressman David Miller was one of the 371 aboard, and got The Express all excited with his report that "Twice the Prince escaped near-disaster in the Air Canada jumbo jet."

The Express charges Air Canada with carelessness in taking off the second time too soon after the first. The brakes, tires and undercarriage were still overheated from the first aborted attempt with the blowout and fire resulting.

The British public is left with the vague suggestion that it was just another in a series of disasters, contrived or accidental, spoiling the royal visit.

## Think small

Greatness is just a state of mind.

What, after all, distinguishes the outstanding politician from the merely good? Normally, dedication and effort.

Or, what separates the wonders of the world from the passing tourist attractions? Not much other than an extra dose of architectural input.

And what makes the difference between the world's greatest athlete and all the rest? A heck of a lot more determination.

It's the same thing - belief that the nation can be great - that produces the truly impressive civilizations.

## The Ultimate State of Mind

The United States progressed from a few muddy villages to global domination almost entirely because its people possessed that ambition to be great. And it began to decline when the people started to have doubts about their national abilities. Greece, Rome, The British Empire. Pick an exceptional nation and you'll always find an exceptional state of mind.

Canada has always possessed two of the three ingredients for greatness - resources and talent - but we've lacked the essential third - the expectation that greatness is not only possible but

inevitable. We've never developed a Canadian culture because it was easier to import whatever the Americans were passing around. We've never developed our own resources because the Americans, Germans, Japanese and a lot of other great peoples made it too easy for us to accept their firms. Our sports teams are dominated by imported athletes ("Our imports can beat your imports" is the battle cry of Canada's professional sports) and our universities seek out foreign-educated professors. And so it goes.

But something wonderful

happened out in Edmonton, demonstrating that Canada can, indeed, be great. At the Commonwealth Games, Canada - the former 98-pound weakling of nations - cleaned up in the medals department. Granted, some of the truly heavyweight athletic nations - notably the U.S.A. and Russia - weren't on hand, but it was a mighty satisfying display just the same.

Don Talbot, the national men's swim coach this year, explained recently that the team polled the swimmers on the subject of nationalism before and after the Games. Before the Games, Canada was regarded as rather sec-

ond-rate. Afterwards, it was a different story and the swimmers loved their country. Just as important, the country loved the swimmers.

Are athletes all that far removed from government and public policy or from economic excellence? In one sense, they all function in the same manner - outstanding government will get better politicians just as gold medals

in swimming will encourage more Canadians to try the sport. On the other hand, however, we are sorely lacking in examples of governmental or business excellence.

What this country needs most of all is the belief that economic greatness is possible. Edmonton should have shown us the way to the top in more than just athletics.

## Hockey school ends today

Almost a great save by this young goaltender. This is just a small part of what's been happening at the summer hockey school at the arena the past two weeks. The school began August 21, and ends today, and is sponsored by the Terrace and District Minor

Hockey Association. The kids were divided into three age groups, 7-9 years, 10-12 years, and 12-14 years. The instructors have been Bob Peacock, Gord Cochrane, Randy Henderson, Les Thorstinson, Harold Cox, Cliff Sharples, and Lynn Kralling.

## Quebec wins national title

SYDNEY, N.S. (CP) — James Duff of Montreal and Eric Kaufmanis of Aylmer carded two-under-par 70s Thursday, powering Quebec to the provincial team title in the Canadian junior golf championship at the Lingan County Club.

Jean-Louis Lamarre rounded out Quebec's 473 total with a 73 to give the team a 15-stroke cushion over the scrappy New

Brunswick contingent.

A poor showing by first-round leader Matthew Shaw of West Paradise, N.S., left Duff in first place in the hunt for the junior title with a total of 144. It will be decided following rounds today and Saturday.

Kaufmanis's strong performance put him in sole possession of second place at 146, one stroke ahead of four others including Shaw,

Lamarre, Stewart Ranft of Port Carling, Ont., Dan Maue of Kitchener, Ont., and Derek Thornley of Vancouver.

Defending champion Ontario finished third in the team competition with a two-day total of 455 with Nova Scotia fourth at 466.

British Columbia was fifth at 469 followed by Manitoba at 473, Saskatchewan at 474, Alberta at 478, Prince Edward Island at 486 and Newfoundland at 487.

Duff rebounded off an opening day round of 74,

mainly by "getting back to the basics."

"Yesterday I was putting too fast and that hurt by concentration on the games," the 18-year-old said. "Today I told myself to take my time and it worked out fine."

At one point, Duff was in a position to challenge the course record of 67.

Standing on the 17th tee at four under par 68, Duff knocked his drive on the short par-three hole right over the green and ended up taking a double bogey five.

## Playday Saturday

The Kermode 4-Wheelers will be having a "Playday" Saturday, September 2 at Copper Plains just six miles east of Terrace on Highway 16. Registration begins at 8:00 A.M., and will continue until 11, where the vehicles will be inspected, and classified. There will be many novelty events such as a sand drag, relay races, and teeter-totter, as well as a hill climb another half mile down the road. Many vehicles will be entered from as far away as O.V.-Vancouver, and there will be some sharp looking machines. Spectators are welcome, and there is no admission charge, and a concession stand will be in operation. It promises to be a lot of fun, so why not drop out and watch the action?

## Fishing report

By Don Pearson - Custom Sports

Low Tide 3.2 ft. at 7:35 a.m.

High Tide 13.8 ft. at 1:45 p.m.

Douglas Channel fishing yesterday picked up, with some nice size Spring salmon coming in from the far end of Sue. The Coho still seem to be hard to find, but with the long weekend coming, more than likely some of the boaters will get into them. Some of the nicest catches of crab this summer have come in over the last few days, with most being eight to nine inches across. There are some Coho in the Gilloties River for the jet boaters, as this is a long walk for most of the fishermen.

## NEW T.M.T. HOT "PLATES" THE INSIDES OF YOUR ENGINE WITH A 50,000 MILE PROTECTIVE Du Pont Teflon\* COATING!

\*Reg. U.S. Pat. Office for Du Pont's fluorocarbon resins.

**FACT** The cost of owning and operating any vehicle—car, bus, truck, you name it—has gone straight through the ceiling! The cost of gasoline and oil? UP! The payments demanded by skilled (and not-so-skilled) mechanics? UP! The prices tags on new cars and trucks? UP! It's positively sickening—and it's going to get worse before it gets any better!

ED ALMQUIST WORLD FAMOUS AUTOMOTIVE ENGINEER REPORTS ON T.M.T. TEFLON TREATMENT.

"The active chemical ingredient in 'T.M.T.' has a special affinity for metal which causes it to 'plate' and adhere to all exposed friction surfaces. Polymers attract more polymers to a micro thickness which means a 'controlled' build-up occurs around worn surfaces, which accounts for the numerous user-reports of reduced 'blow-by', increased compression readings, and reduced oil consumption!"

"And in order to effect a permanent treatment, you simply add 'T.M.T.' to the crankcase oil through the oil filler hole (so easy—that even a child can do it)—preferably after the engine has reached normal operating temperature. The engine should then be run for a minimum of thirty minutes in order to make sure that all friction surfaces are 'plated'. Only eight ounces are required for the average passenger car or small truck engine."

"And once 'T.M.T.' has been added to an engine—positive results can be seen through the experienced and trained eyes of even the most skilled of mechanics. They will notice a decided increase in compression readings—which indicates that piston and ring seal have improved. An increase in idle r.p.m.'s will also be detected due to the reduced friction after a few hundred miles of 'T.M.T.' 'plating'."

"CONCLUSION: Not only is 'T.M.T.' easy to use (it should take 30-seconds at the most for adding a permanent treatment)—but its results can be seen even under the careful scrutiny of any mechanic! The benefits that can be expected with 'T.M.T.' in the engine—are as follows: Increased Gas Mileage—Increased Horsepower—Less Oil Consumption—Less Wear On Internal Parts—Reduced Emissions—Lower Operating Temperatures—Easier Cold Weather Starts!"

Now that you've heard from the expert... listen to the voices of ordinary drivers.

THE RESULTS PEOPLE HAVE GOTTEN ARE SO SENSATIONAL, WE CAN'T PRINT THEM. THAT'S WHY WE'VE "BEEPED" THEM OUT OF THESE ACTUAL CUSTOMER LETTERS... (Once you've put T.M.T. in your vehicle, you'll be fitting in the figures yourself!)

Motorcycle Racer gets more power!

"As an engineering student and racer, I was interested in what T.M.T. would do in a tenth mile speed test."

A series of runs from a standing start showed that our T.M.T. (Elapsed Time) was reduced by XX a second after T.M.T. was added to the fuel mix in my 125 c.c. Kawasaki Motorcross racing motorcycle."

As a student of engineering this proved that T.M.T. reduced friction and increased power."

R.B. — Racer

"Bad Deal" becomes "Good Deal" with "T.M.T."

"I've tried gas savers, pills, new filters, engine treatments, etc. My friend told me about a product that his father had just tested for his fleet of trucks and I'm sure you guessed it was T.M.T. My mileage has gone from XX to an unbelievably astounding XX. My father, who is a car mechanic told me it's impossible but I've kept exact records on my last four tankfuls and have proven the old saying that even fathers can be

wrong. Of course he probably won't admit it until he uses the T.M.T. in his car that I'm giving him as a present!"

—R.W.

Auto Mechanic recommends "T.M.T."!

"I am an Auto Mechanic and I drive a '67 Caddy, and it was using a lot of gas in the city and on the highways. I was getting 14 miles to the gallon, but now, since I've been using 'T.M.T.' I pick up XX gallons in the city—and XX gallons on the highway, so I know you people have a good product and I will recommend it."

Mr. C.T.B.

FILL OUT AND MAIL NO-RISK COUPON—TODAY!

ONLY TWO TO A CUSTOMER. DUE TO OVERWHELMING DEMAND. (FIRST COME, FIRST SERVE).

Enclosed is ☐ cheque or ☐ money order  
☐ one at \$14.95 ☐ two at \$26.95

In view of the many possible savings and benefits cited above, what do you suppose any vehicle owner or operator would gladly pay for a one-time, permanent treatment of T.M.T. \$50.00? \$100.00? MORE? Well, listen to this. The established retail price of T.M.T. is only \$14.95! That's right, only \$14.95—a tiny investment that could possibly pay itself back dozens of times over in savings on gas, oil, and repair bills. Fantastic!

## Umps ordered back

PHILADELPHIA (AP) — A federal judge indefinitely extended a temporary restraining order Thursday against the Major League Umpires Association, preventing baseball's men in blue from walking out while their lawyers continue to deal with the legal rharb.

The dispute, which has been brewing since spring, was highlighted by a one-day strike Aug. 25. The disgruntled umpires walked out after the American and National leagues refused to negotiate 21 new demands in an eight-page telegram sent Aug. 16 to both league offices.

District Court Judge

Joseph McGlynn ordered both sides Thursday to submit briefs by Sept. 15. He had granted the temporary restraining order the same day the umpires walked out, but not in time to prevent the work stoppage.

College and retired professional umpires filled in at the 13 affected games and the regulars were back at work Saturday.

The umpires contend the current five-year contract between the association and the two leagues is not binding because it contains inaccuracies and does not cover all the mandatory subjects of collective bargaining.

## Mexican ambassador's son killed

MEXICO CITY (AP) — The 35-year-old son of Mexico's ambassador to the United States has been found dead after being kidnapped by guerrillas who demanded \$2 million "for the struggle of the proletariat." A police source said an autopsy showed he was shot once in the leg and bled to death.

There was speculation the fatal bullet was fired during a shootout between bodyguards and the four men and a woman who ambushed Hugo Margain Charles and a U.S. friend Tuesday night near Margain's home on the south side of Mexico City.

Police sources said the body was found in a field near Chalco, 28 kilometres from Mexico City, at 8 a.m. Wednesday, about 12 hours later, and taken to the morgue at Chalco. But it was not identified until 10:30 p.m., the sources said.

**BODY DUMPED**

Detectives said the body was clad in a suit jacket and underwear, and the spot where it was found was relatively free of blood, indicating Margain had been dead some time before the body was dumped there.

Margain, director of the Institute of Philosophy at the University of Mexico, was riding in his 1972 Dodge with Justin Evans and with bodyguards in a car following.

A police report said the Dodge was intercepted by a black Ford Galaxy containing four men and a woman.

"When the bodyguards tried to intervene," the report said, "the attackers opened up with a burst of sub-machine-gun fire."

"A bodyguard was wounded. Return fire by the bodyguards also presumably wounded one of the attackers, but they all managed to escape."

Evans, who was not otherwise identified, also was wounded, but a spokesman at the hospital where he was treated said his condition was not serious and he was released.

The kidnappers left behind a leaflet signed by the 23rd of September Communist League, Mexico's most active left-wing urban gang. It said: "Await instructions. The kidnapping is to obtain money for the struggle of the proletariat."

Police sources reported that a member of the Margain household reported the family got a phone call from the kidnappers demanding \$2 million in ransom.

Margain's father, Hugo Margain, is serving his second tour as ambassador to the United States. He also has been Mexico's ambassador to Britain and secretary of the Mexican treasury. He was reported with the family in Mexico City.

The 23rd of September Communist League takes its name from the date of a shootout more than a dozen years ago between student activists and soldiers at an army barracks in the northern state of Chihuahua. It is Mexico's largest and best-organized guerrilla gang.

## Kenyatta buried, Kenyans told to protect peace

NAIROBI AP — Kenyans, mourning under a hot African sun Thursday, buried the father of their country, Jomo Kenyatta. The presiding clergyman warned against "fierce" who might try to destroy 15 years of peace and prosperity nurtured by the late president.

Kenyatta died Aug. 22 at his residence in the coastal town of Mombasa. He was in his 80s.

He emerged from eight years in British jails to lead his land to independence in 1963 and then helped make Kenya one of the most stable among the new countries of Africa.

"We can destroy it all in one day if we so wish," Rev. Charles Kareri said during the funeral. "We also have

the power to make it live and progress to greater prosperity."

Kareri, pastor of the Presbyterian Church of East Africa, in which Kenyatta was baptized and reared, did not say who he thought would harm Kenya. Kenya's acting president, Daniel Arap Moi, was a close political ally of Kenyatta and is regarded as his most likely successor.

### FLAMES BURN ON

Kenyatta's coffin was lowered into a marble tomb inside a glass-walled mausoleum on the grounds of the Parliament building here. Eternal flames were lit at its four corners.

Representatives of 82 countries, including 11 heads of state, attended the services.

Tens of thousands of mourning Kenyans lined the 50 kilometres of road from Kenyatta's home village of Gatundu as the body was brought to the capital.

To the slow beat of a muffled drum, the silver-lined, African oak casket was borne through the streets on a gun carriage that had been used for the 1965 funeral of Sir Winston Churchill.

Eighteen representatives of Christian, Moslem and African religions conducted an inter-denominational service. After the recitation of prayers, a 21-gun salute was fired and jet planes from the Kenyan air force flew overhead, dipping their wings in tribute to their dead commander-in-chief.

**AMIN SNUBBED**

Prince Charles, representing Britain, snubbed Ugandan President Idi Amin at the services by turning to speak with a British official when Amin walked toward him.

Amin waited several moments to greet Charles, but the prince kept his back to the Ugandan, who has been widely accused of fostering atrocities and other human-rights violations in his country. Amin then took a seat two places from Charles and the two ignored each other throughout the funeral.

As Amin left the service, however, he received the warmest welcome of any leader from the Kenyans gathered outside.

### New Oddities

## Classy teenage date

EVON, Pa. AP — George Steve DiFrancesco is only 16, but he likes to do things with a flourish. Take his first date with Tracy Hayward, for example.

The Devon Prep School senior rented a tuxedo, called a cab and took Miss Hayward to a fast-food restaurant for dinner.

They had a private maitre d', also in a tuxedo. He was Steve's uncle, Wayne DiFrancesco.

The meal? Diet 7-Up in a champagne bottle and two hamburgers. Music was provided by Donnamie DiLabio, who played the violin.

"You're insane," was Miss Hayward's early comment to her date. But then she mellowed, saying: "He scored a 100."

"It doesn't take long in warm weather for garbage to get ripe," complained Vernon Fitzpatrick, manager of a state park in Michigan's Upper Peninsula, in a memorandum to the state department of natural resources.

"In the parks this would include dog droppings, disposable diapers, you name it."

The experiment, authorized by the state legislature, is an attempt to gauge the effect of a ban on most throwaway beverage containers which takes effect in December.

Fitzpatrick said his crew's romp through 10 tons of garbage has turned up more than 12,000 drink cans, nearly 7,000 throwaway bottles, less than 2,000 plastic bottles and just seven returnable containers.

snow to warrant use of a snowplow only about half a dozen times a year.

The Federal Aviation Administration, which grants funds to airports for paving and other improvements, said Sydney could have its snowplow, provided it commissioned an airport layout plan, costing about \$25,000, and put up a building to put the snowplow in - at a cost of \$106,000.

Federal funds are awarded with the stipulation that the city put up 10 percent and the town had only budgeted \$9,800.

Feeling that things were getting somewhat out of hand, the town did its best to make its request - for a snowplow, just a snowplow - clear and waited for a response. It's still waiting.

LANSEING, Mich. AP — You think your job stinks? Some Michigan park workers say they are fed up with digging through garbage bins as part of a high-priority research project on throwaway bottles.

**MARINE NOT GUILTY**

PARRIS ISLAND, S.C. (AP) — A court-martial jury has found a U.S. marine recruiter not guilty of charges of dereliction of duty in knowingly recruiting illegal aliens into the Marine Corps. The jury of four officers and three enlisted men deliberated about 15 minutes Tuesday before acquitting S.Sgt. Artis Washington of illegal recruitment and falsifying documents.

**BARRIERS REMOVED**

WASHINGTON (AP) — The U.S. Coast Guard said Wednesday it will remove most of its sex barriers and send more women to sea. Only 24 of the service's 707 women now are on sea duty, but the coast guard said many more are being assigned to its vessels. Under the new policy all women graduates of the Coast Guard Academy, like the men, will be assigned to sea duty.

**PURSE STOLEN**

LOS ANGELES, Calif. (AP) — The wife of Yemen's ambassador to the United Nations reported that her purse containing about \$40,000 in cash and jewelry was stolen as she ate dinner at a downtown hotel, police said Tuesday.

# REAL ESTATE

## Decorate your kitchen and bathroom

Kitchens and bathrooms are fast becoming the most decorated rooms in homes today. There are several reasons for this. Let's say you have an older home and are in the process of renovating it. Although most people want to live with original moldings or brick fireplaces and spend hours bringing them back to their original look, few are prepared to live with old fashioned plumbing, appliances or linoleum, and thus kitchens and bathrooms are often top priority in terms of modernization.

In new homes or apartments, the challenge is to have a kitchen and, to a lesser degree, a bathroom that lives up to your lifestyle.

The open kitchen plan is becoming more popular. This makes the kitchen the center of activity and a place where guests are often invited to participate in meal preparation or simply sit and chat. Sometimes, too, it can be viewed from living or dining room. It has to be inviting. Many bathrooms are built ensuite, children often have their own, and powder rooms abound.

It's not surprising that wallcoverings have become the number one decorating tool for these rooms. Mary Prud'homme, Interior Design and Color Consultant for Sunworthy Wallcoverings, says, "Not only do wallcoverings offer all the decorative advantages in the kitchen or

bathroom, but also many practical benefits as well."

If you're starting from scratch, it's good to know that wallcoverings are color keyed and co-ordinated with pieces of equipment and accessories for both kitchens and bathrooms. You'll find fixtures, towels, pots and pans, and appliances that will go nicely with wallcoverings. It's a good way, in fact, to start a color scheme because wall patterns will have the largest color impact. Naturally, the range of color selections will come in whatever period style you are looking for, whether Colonial, Contemporary or Traditional. And here, of course, is the beauty of today's wallcoverings. Even if you plan a Colonial kitchen decor, the wallcovering will have all the practical qualities of today, such as scrubability, so that it can be used along the splash back of a sink or counter as spatters or other food stains will come off. They are normally undaunted by bathroom steam, other than in extreme cases.

The wallcoverings often have color and pattern co-ordinated companion designs which lend themselves particularly well to kitchens and en-suite bathrooms. A delightful example from Sunworthy's new Kitchens & Bathrooms Collection is a very handsome duo, "Bamboo Garden" and "Garden Lattice" - a stripe featuring the

This handsome duo of co-ordinated wallcoverings "Bamboo Garden" and "Garden Lattice" is the ideal combination for a master

bathroom plan and a lattice design - which comes in a sophisticated two-tone brown-white combination, ideal for a master bathroom. A delightful contemporary vegetable design in a stripe,

"Healthy Harvest" and a co-ordinated plaid, would give a lift to any kitchen. The plaid can be used to face cupboards or used in an eating alcove or family area. Wallcoverings such as the

new Sunworthy Collection for Kitchens & Bathrooms are pre-pasted so that they are a simple do-it-yourself project.

"Strawberry Patch" wallcovering from Sunworthy adds color and brings the outside in to add to the natural look of pine and quarry tile in this kitchen. Wallcovering is

pre-pasted, scrubbable and dry strippable, from the Sunvynil Collection.

## Decorating Ideas

### QUICK AND EASY

This bright and inviting party room sets up in minutes, with Cosco's colorful "Hot Seat" folding chairs and matching tables. The bold blue-yellow-and-green scheme is carried out with striped blinds, plaid carpet and lots of fresh plants. Accommodating twelve for a sit-down dinner, served from the buffet cart, the setting clears off easily for an evening of backgammon (or your favorite indoor game). And when the party's over, everything folds flat to store in a closet.

## OUTDOOR LIVING

### Casual And Classy

DISCREET CHARM of outdoor dining can have a touch of class when the tables are topped with acrylic that looks like glass. Photo courtesy of Tropitone, Sarasota, Florida.

You don't have to be on the outs with elegance just because you're dining outdoors.

Present-day patios are as well-planned as any other part of the house—but with a breezy style all their own.

To set up an outdoor supper, you might start with a sleek set of brunch table, chairs and tea table in the Marrakesh style from Tropitone that combines the mystery of the past with the vitality of today's good living.

To many, the table tops are the real hit of this suite. They look like elegant hammered glass, but they're really of acrylic cast Acrylite® sheet from CY/RO INDUSTRIES with 15 to 20 times the impact strength of hammered glass.

Other ways to pretty up your patio include elegant, up-to-the-minute acrylic hanging planters. They im-

prove the patio's airy atmosphere and look delightfully lightweight.

Window boxes of acrylic can be used to enhance the outdoors when the weather's warm and brought in to beautify the rest of the house when the cold comes.

A portable bar/serving cart for indoor and outdoor use makes serving neater and easier, and when the cart's acrylic, keeping it clean can be breezeier.

Acrylic serving bowls look smart and won't shatter if they fall onto a hard patio floor.

An elegant dining set and a patio set with sophistication could help make your next outdoor party and out-and-out success.

For a free booklet, "How To Care For Furniture of Acrylite® acrylic sheet," write to CY/RO INDUSTRIES, Berdan Ave., Dept. TR, Wayne, N.J. 07470.

Some people have believed that flying bats indicate fair weather.

## WIGHTMAN & SMITH REALTY LTD

REAL ESTATE AUTOPLAN AGENT GENERAL INSURANCE

**WELL KEPT DUPLEX**  
ON HEMLOCK 3 bedrooms in each, paved street, basement has separate entrance, double windows, oil heated, living and dining rooms in each, worth looking at, asking \$65,000. MLS.

**SOUTH KALUM STREET**  
Low priced 3 bedroom family home, over 1,000 sq. ft., nice kitchen-nook with auto laundry hookups, carpet in living room. Home is being renovated and is presently vacant. Good financing available at \$26,000. MLS.

**ALL REASONABLE OFFERS WILL BE CONSIDERED ON THIS ESTATE LIKE HOME**  
Sited on 5 acres just north of Terrace. Asking price of \$65,000 is a give away price at todays building costs. View by appointment only. MLS.

**\$47,500 - 2.07 ACRES - 3 BEDROOM FOUR YEAR OLD HOME**  
Just waiting for a loving family. Call us to view. MLS.

**ACRES WITH TWO HOMES**  
3.01 acres, Kalum Lake Road. 716' rd. frontage on pavement, subdivision potential. Newly decorated 2 bedroom solid home, plus a 1 bedroom 8x32' trailer. Excellent spring fed well, some appliances, joey shack, storage building and chicken house. All for only \$40,000. MLS.

**LAKELSE LAKE RESIDENCE AND NEARLY 1 ACRE**  
3 bedrooms, basement extra rooms, lovely living area with fireplace, kitchen and bar, full bathroom, new 6,000 watt diesel power plant, large sundeck, completely modern for year round living, one of the nicest lake residences. Some furniture may be included. Own wharf is included for asking price of \$60,000. Open to offers.

**REVENUE PROPERTY**  
Reduced again to \$65,000. Over 1 acre Paquette close to Clarke, 4 large units, 2 and 3 bedroom suites, two well built premises, good occupancy history will pay for itself. Ranges and fridges included. Was \$75,000. Owner moved and is anxious. Make your offers. MLS.

Ask us about our other highway acreages and building lots in and around Terrace, you may be missing something in your search.

**INDUSTRIAL LOTS ON GREIG**  
4-33' corner lots, excellent for investment or business building. Will sell all four for \$45,000 or may sell two for \$25,000. MLS. Ask for further details.

**HWY. 16, NEAR CLARKE**  
.719 acre commercial 162' hw. frontage, with 2 room office building plus car rental business, plus car sales assignment units, fire stock and office equipment all included. Ask for further details.

**A LOG HOUSE**  
would look good on this 6.22 ACRES ON WOODLAND PARK DRIVE PRICED AT \$20,000. MLS.

# CLASSIFIED ADS

The Herald reserves the right to classify ads under appropriate headings and to set rates therefore and to determine page location.

The Herald reserves the right to revise, edit, classify or reject any advertisement and to retain any answers directed to the Herald Box Reply Service, and to repay the customer the sum paid for the advertisement and box rental.

Box replies on "Hold" instructions of pickup of an advertisement will be destroyed unless mailing instructions are received. Those answering Box Numbers are requested not to send Originals of documents to avoid loss.

All claims of errors in advertisements must be received by the publisher within 30 days after the first publication.

It is agreed by the advertiser requesting space that the liability of the Herald in the event of failure to publish an advertisement or in the event of an error appearing in the advertisement as published shall be limited to the amount paid by the advertiser for only one incorrect insertion for the portion of the advertising space occupied by the incorrect or omitted item only, and that there shall be no liability to any event greater than the amount paid for such advertising.

Advertisements must comply with the British Columbia Human Rights Act which prohibits any advertising that discriminates against any person because of his race, religion, sex, color, nationality, ancestry or place of origin, or because his age is between 44 and 65 years, unless the condition is justified by a bona fide requirement for the work involved.

### TENDERS

#### RECEIVERSHIP FORSALEBY TENDER

Sealed tenders will be received by the undermentioned Receiver until 2:00 o'clock in the afternoon on Friday, the 15th day of September, 1978 for the following assets en bloc:

- (a) Stock in trade - retail value \$6,773
- (b) Store fixtures and equipment

Bids must be accompanied by a deposit of a certified cheque payable to the Receiver in an amount equal to at least 15 percent of the amount bid and must be contained in a sealed envelope clearly marked "Boychuk Enterprises Ltd. - Tender".

The deposit will be returned to the bidder if the tender is not accepted.

The highest or any tender will not necessarily be accepted.

Any deposit will be forfeited as liquidated damages by the bidder to the Receiver if the bid is withdrawn at any time before receipt by the bidder of a notice from the Receiver advising the name of the successful candidate, if any, and any terms of the successful bid.

Sales taxes are to be paid by the purchaser unless the purchaser produces an exemption certificate.

The purchaser of the assets must (a) make arrangements with the landlord to lease the premises and carry on business there, or (b) remove the said assets from the premises by September 30, 1978 at his own expense.

Tenders will be accepted on the basis that the purchaser has inspected the assets and that no warranty or condition is expressed or can be implied as to description, condition, size, quality, or in any manner whatsoever.

The vendor reserves the right to withdraw from the sale any assets at any time if he receives evidence that they may not be the property of Boychuk Enterprises Ltd. Bids received will be adjusted by negotiation upon withdrawal of any assets.

The assets may be viewed at the company premises on Highway 16A approximately one mile outside Prince George, B.C. from 9:00 a.m. until 12:00 o'clock noon on Friday, the 8th day of September, 1978.

Further information may be obtained by contacting either Bill Mours or Murray Mawhinney at the address listed below.

Sealed tenders must be forwarded to the address show below.

Gardner, McDonald Ltd. Receiver  
No. 601-280 Victoria Street  
Prince George, B.C.  
563-1581

### 68. LEGAL

# Your Individual Horoscope

Frances Drake

**FOR FRIDAY, SEPTEMBER 1, 1978**  
What kind of day will tomorrow be? To find out what the stars say, read the forecast given for your birth sign.

**ARIES** (Mar. 21 to Apr. 20) ♈  
Opposition from someone close can delay action in a matter that calls for your sensitive handling. Try not to be put off.

**TAURUS** (Apr. 21 to May 21) ♉  
Opportunity for advancement could be missed if you are not paying attention to present business. Keep those eyes open, especially now.

**GEMINI** (May 22 to June 21) ♊  
If you plan ahead, you can be ready for an unexpected offer of an outing or excursion. It's a venture you will want to join.

**CANCER** (June 22 to July 23) ♋  
Thoughts of an old friend cause you qualms, but don't be afraid to try to mend fences. Just be honest in your actions.

**LEO** (July 24 to Aug. 23) ♌  
Honors that came easily might require responsibility on your part, particularly if some religious ceremony was involved in the relationship with the person who now calls on you.

**VIRGO** (Aug. 24 to Sept. 23) ♍  
If you consider this a down day, it is time to pick yourself up. Your mental outlook is most likely what is causing you trouble.

**LIBRA** (Sept. 24 to Oct. 23) ♎  
Imagination and originality are the routes to success today, but try to balance your emotional responses if you encounter opposition.

**SCORPIO** (Oct. 24 to Nov. 23) ♏  
You really have to care to get anywhere today. Indifference can only lead to failure whether in career or personal dealings.

**SAGITTARIUS** (Nov. 24 to Dec. 21) ♐  
You have second thoughts about a course of action, so pay attention to them and remember that when in doubt, don't!

**CAPRICORN** (Dec. 22 to Jan. 20) ♑  
Take a second look at agreements you are ready to make. Those that show the least promise might deserve further consideration before the decision is final.

**AQUARIUS** (Jan. 21 to Feb. 19) ♒  
The cooperation of others is vital to your current plans, so don't be too aggressive in trying to force the issue.

**PISCES** (Feb. 20 to Mar. 20) ♓  
Educational activities are especially favored now along with any involvement in politics. It's a generally good day.

**YOU BORN TODAY** have a strong shoulder that people are fond of crying on. That is because you are particularly sympathetic and a good listener. But don't neglect your own needs. You are intelligent and artistic, and should pursue a career that is challenging as well as creative. The theater, music, designing, teaching are all favored fields.

©1978 King Features Syndicate, Inc.

**FOR SATURDAY, SEPT. 2, 1978**  
What kind of day will tomorrow be? To find out what the stars say, read the forecast given for your birth sign.

**ARIES** (Mar. 21 to Apr. 20) ♈  
You are in the mood to go off on tangent and to ignore present affairs just when more attention is called for. Don't let yourself down this way.

**TAURUS** (Apr. 21 to May 21) ♉  
Your intuition tells you that a familiar situation requires special handling to keep you out of a tight spot, but don't let your action be made in haste.

**GEMINI** (May 22 to June 21) ♊  
An unusual idea could spark a new approach to career matters. This is a day to ex-

**CRYPTOQUIP** 7-18

ICWJAT AHIWA BCHSB C'AS  
ISAAT JHWA

Yesterday's Cryptoquip — WISE OLD OWL CANNOT TAKE WOODEN NICKELS.

Today's Cryptoquip clue: C equals O

The Cryptoquip is a simple substitution cipher in which each letter used stands for another. If you think that X equals O, it will equal O throughout the puzzle. Single letters, short words, and words using an apostrophe can give you clues to locating vowels. Solution is accomplished by trial and error.

©1978 King Features Syndicate, Inc.

and your business contacts in a well-planned manner.

**CANCER** (June 22 to July 23) ♋  
Keen competition will not discourage you because of your confidence in your own ability. Make the best of your many fine talents.

**LEO** (July 24 to Aug. 23) ♌  
Smaller advances may be more rewarding than one giant leap forward. The footing may be surer and the demands more easily met.

**VIRGO** (Aug. 24 to Sept. 23) ♍  
Look for someone outside your normal circle of friends to help with a venture, but make certain that there is a similarity of outlook.

**LIBRA** (Sept. 24 to Oct. 23) ♎  
Self-discipline is one of your strongest traits, and it should be used now to overcome present tendencies toward lethargy and inertia.

**SCORPIO** (Oct. 24 to Nov. 23) ♏  
Not the time to irritate others without ample reason. It may be better to hold up on decisions and wait for added factors to appear.

**SAGITTARIUS** (Nov. 24 to Dec. 21) ♐  
A discussion of ambitions, goals, plans and ideas for the future can be held with associates for a long-term benefit.

**CAPRICORN** (Dec. 22 to Jan. 20) ♑  
Do not take any action in a pressing situation until you are certain you have all the facts because a mistake cannot be easily undone.

**AQUARIUS** (Jan. 21 to Feb. 19) ♒  
Reading between the lines and examining the fine print are called for on a day that should be profitable. An unexpected discovery may be made.

**PISCES** (Feb. 20 to Mar. 20) ♓  
There may be a shuffling of your duties and responsibilities, but accept them gracefully and you may be pleased.

**YOU BORN TODAY** are an open and friendly person with qualities of leadership. As

with many Virgoans, you can guide others without appearing to push them, and thus you are easily followed. You never take yourself too seriously, but a fear of failure does at times slow your progress. The best of many fields is yours for the striving, but anything with the arts, writing, acting, painting, is especially favored.

**DEAR ABBY:** I've never seen this problem in print before, but you have no idea how much it means to those of us who are faced with it.

My husband thinks his car is a plaything. It is unbelievable how immature he becomes when he gets behind the wheel.

For example, he'll pick out a car on the road and try to "race" with it. Or he'll drive with no hands on the wheel, and steer with his KNEES. Or if he sees a pedestrian slowly crossing the street, he'll speed up and aim his car right at him and stop abruptly to "scare" him. He also tries to frighten other drivers by seeing how close he can come to them without actually hitting them. Believe me, we've had some pretty close calls.

He even does these things when our three impressionable youngsters are in the car, and they seem to enjoy it. If I say one word to him, he flies into a rage, so I just sit there and tremble in silence.

Can you help me?

SHOW OFF'S WIFE

**DEAR WIFE:** If the most you can do is "tremble" when your husband risks the lives of his family—as well as his own and strangers'—you have a bigger problem than you think.

Call the traffic division of your local police department and report the poob. Give them his license number, and the description of his car, and let them know approximately when and where they can find him. Of course, they can't touch him until they catch him breaking the law, but if he drives as you say he does, they'll soon nab him.

# Texas woman sentenced to death after hiring father's killer

WHARTON, Texas (AP) — A 35-year-old woman convicted of hiring her father's killer has been sentenced to die by an injection of sodium pentothal. If she is executed, Mary Lou Anderson will be the first woman ever to die under Texas's present capital punishment laws.

## Trainees beaten

FORT DIX, N.J. AP - Five U.S. Army drill sergeants here face court martial on charges of threatening and physically abusing 22 trainees last month. The five sergeants are accused of 65 counts of mistreating the trainees during basic training between July 20 and July 31, officials said. One sergeant - S. Sgt. Robert Collins, 26, of Pomona, Mo. - was charged with 18 counts of maltreatment.

A few hours after Ms. Anderson was convicted Tuesday, the state court jury of nine men and three women ordered her to die. Formal sentencing will be Sept. 8.

Ms. Anderson was accused of hiring Faryl Granger, 29, of Lafayette, La., to kill her father so she could collect a \$5,000 insurance policy that contained a double indemnity clause. Fort Bend County Attorney Bill Meitzen said Ms. Anderson, who has been a prostitute most of her life, needed the money to make restitution on \$6,000 in bad cheques and thus avoid a jail sentence.

Granger is to stand trial later on a charge of capital murder.

The bodies of Steve and Margie Anderson were found in their home Jan. 3. Anderson had been shot three times in the head at close range. His wife, Ms. Anderson's step-mother, was shot five times in the head.

The last woman sentenced to death was Carolyn Ann Lima, convicted in 1961 of the murder of Houston real estate salesman Fred Tones.

The conviction was overturned four hours before she was to die. Her sentence later was reduced to 15 years.
